Dear «TITLE» «LAST_NAME»:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the
Coachella Valley Water District Water Reclamation Plant No. 4
Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.

We are hereby notifying you of an opportunity to consult with us regarding the potential for this project to impact Tribal Cultural Resources, as defined in Section 21074 of the PRC. The purposes of tribal consultation under AB 52 are to determine, as part of the CEQA review process, whether or not Tribal Cultural Resources are present within the project area, and if so, whether or not those resources will be significantly impacted by the development of this property. If Tribal Cultural Resources may be significantly impacted, then consultation will also help to determine the most appropriate way to avoid or mitigate those impacts. CVWD understands that Tribal information submitted to our agency shall be kept confidential (PRC §21082.3(c)(1)). The purpose of Assembly Bill 52 consultation is to obtain Tribal expertise on the subject project area (PRC §21080.3.1(a)) via Tribal submittal of comments, information and/or project design measures.

In accordance with Section 21080.3.1(d) of the PRC, you have 30 days from the receipt of this letter to either request or decline consultation in writing for this project. Please send your written response to Carlos Huerta's attention at the Coachella Valley Water District 75-515 Hovley Lane East, Palm Desert CA 92260 or by email to chuerta@cvwd.org. In your response, please reference the following project name: Coachella Valley Water District Water Reclamation Plant No. 4 Non-Potable Water Improvements Project. If I do not receive a response within 30 days, then we will proceed. Thank you and we look forward to your response.

Sincerely,

William Patterson
Environmental Supervisor

Palm Springs, CA 92264

Dear Tribal Chairperson Milanovich:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the
Coachella Valley Water District Water Reclamation Plant No. 4
Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.

Laura Chatterton
Cultural Resource Specialist
Morongo Band of Mission Indians
12700 Pumarra Road
Banning, CA 92220

Dear Cultural Resource Specialist Chatterton:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the
Coachella Valley Water District Water Reclamation Plant No. 4
Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.

Laura Chatterton
Cultural Resource Specialist
Morongo Band of Mission Indians
February 1, 2024

We are hereby notifying you of an opportunity to consult with us regarding the potential for this project to impact Tribal Cultural Resources, as defined in Section 21074 of the PRC. The purposes of tribal consultation under AB 52 are to determine, as part of the CEQA review process, whether or not Tribal Cultural Resources are present within the project area, and if so, whether or not those resources will be significantly impacted by the development of this property. If Tribal Cultural Resources may be significantly impacted, then consultation will also help to determine the most appropriate way to avoid or mitigate those impacts. CVWD understands that Tribal information submitted to our agency shall be kept confidential (PRC §21082.3(c)(1)). The purpose of Assembly Bill 52 consultation is to obtain Tribal expertise on the subject project area (PRC §21080.3.1(a)) via Tribal submittal of comments, information and/or project design measures.

In accordance with Section 21080.3.1(d) of the PRC, you have 30 days from the receipt of this letter to either request or decline consultation in writing for this project. Please send your written response to Carlos Huerta's attention at the Coachella Valley Water District 75-515 Hovley Lane East, Palm Desert CA 92260 or by email to chuerta@cvwd.org. In your response, please reference the following project name: Coachella Valley Water District Water Reclamation Plant No. 4 Non-Potable Water Improvements Project. If I do not receive a response within 30 days, then we will proceed. Thank you and we look forward to your response.

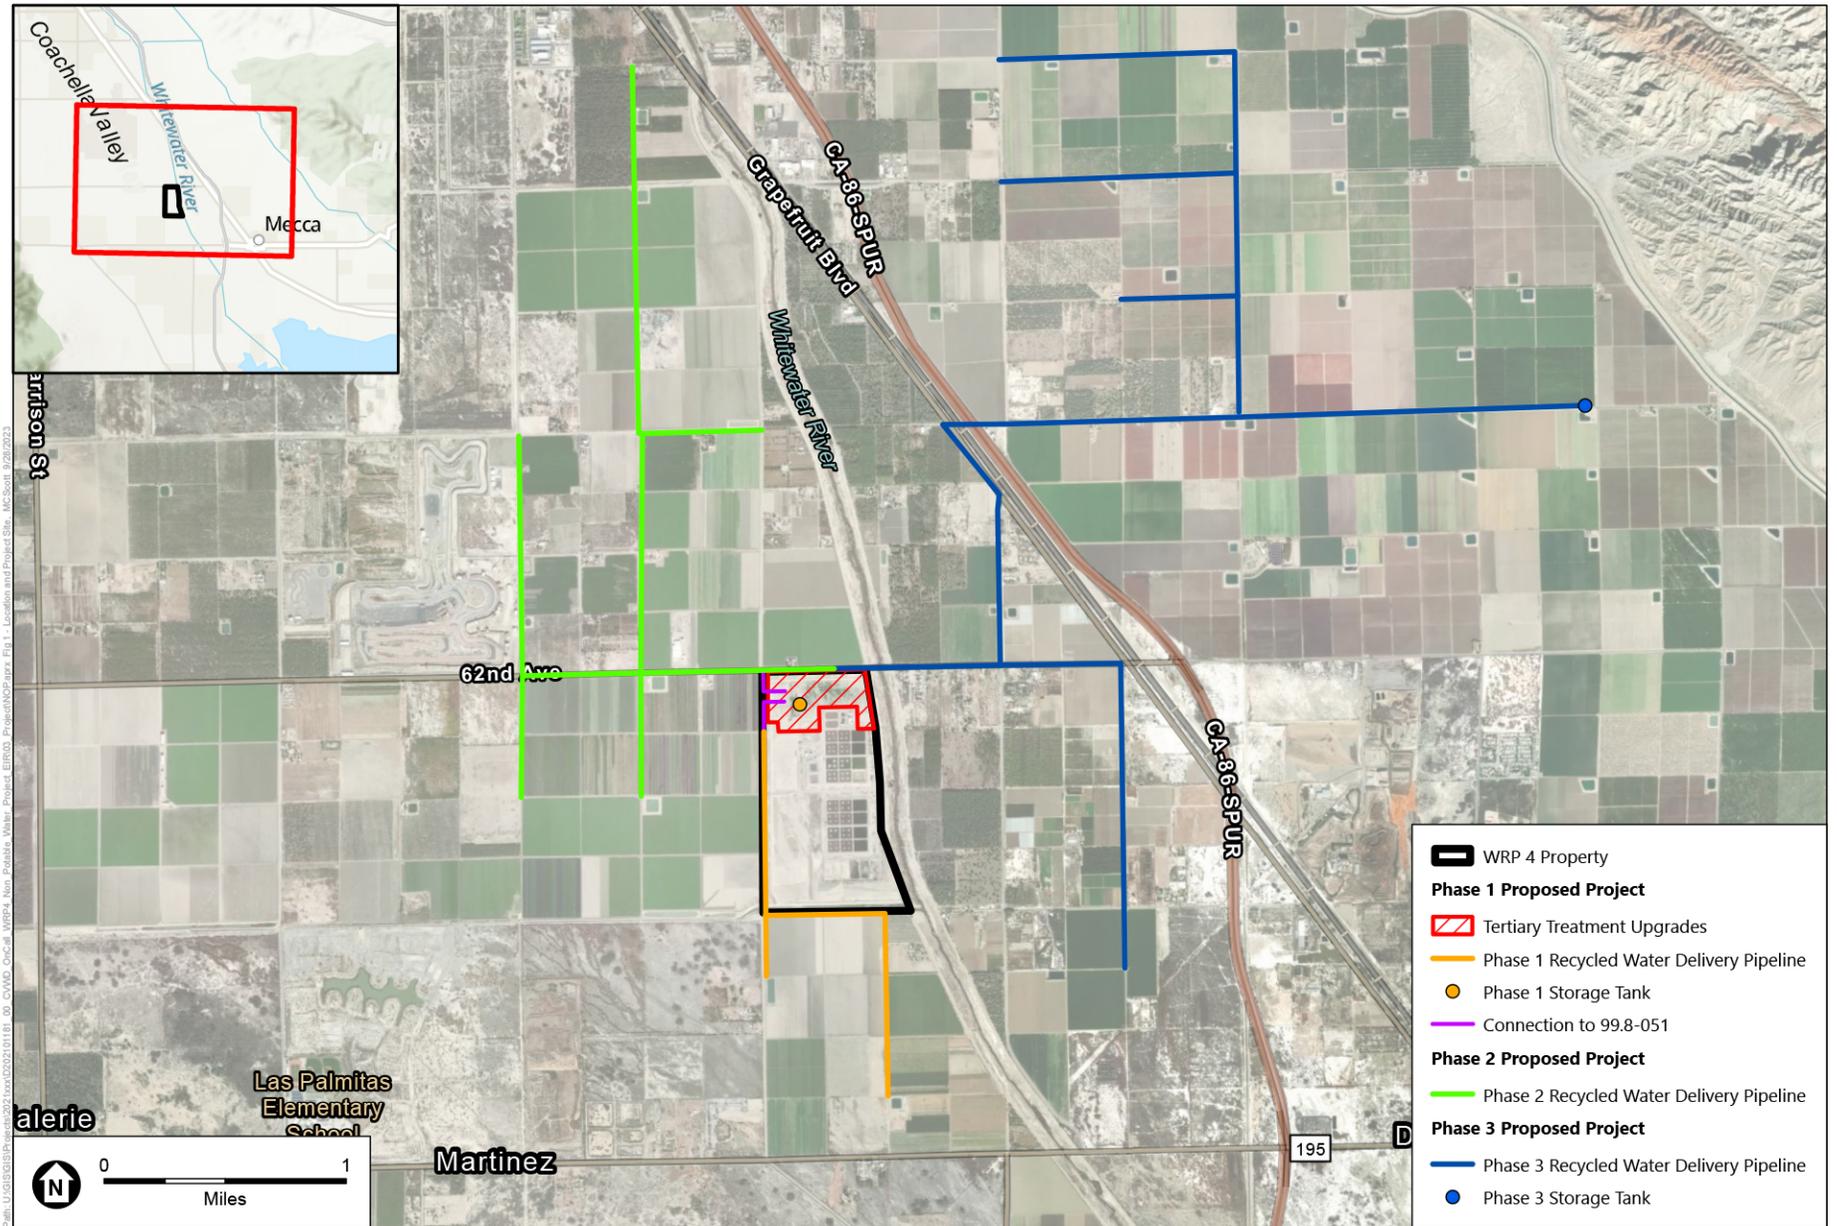

Sincerely,

William Patterson
Environmental Supervisor

Jill McCormick
Historic Preservation Officer
Quechan Tribe of the Fort Yuma Reservation
PO Box 1899
Yuma, AZ 85366

Dear Historic Preservation Officer McCormick:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the
Coachella Valley Water District Water Reclamation Plant No. 4
Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.

Jill McCormick
Historic Preservation Officer
Quechan Tribe of the Fort Yuma Reservation

Page 2

We are hereby notifying you of an opportunity to consult with us regarding the potential for this project to impact Tribal Cultural Resources, as defined in Section 21074 of the PRC. The purposes of tribal consultation under AB 52 are to determine, as part of the CEQA review process, whether or not Tribal Cultural Resources are present within the project area, and if so, whether or not those resources will be significantly impacted by the development of this property. If Tribal Cultural Resources may be significantly impacted, then consultation will also help to determine the most appropriate way to avoid or mitigate those impacts. CVWD understands that Tribal information submitted to our agency shall be kept confidential (PRC §21082.3(c)(1)). The purpose of Assembly Bill 52 consultation is to obtain Tribal expertise on the subject project area (PRC §21080.3.1(a)) via Tribal submittal of comments, information and/or project design measures.

In accordance with Section 21080.3.1(d) of the PRC, you have 30 days from the receipt of this letter to either request or decline consultation in writing for this project. Please send your written response to Carlos Huerta's attention at the Coachella Valley Water District 75-515 Hovley Lane East, Palm Desert CA 92260 or by email to chuerta@cvwd.org. In your response, please reference the following project name: Coachella Valley Water District Water Reclamation Plant No. 4 Non-Potable Water Improvements Project. If I do not receive a response within 30 days, then we will proceed. Thank you and we look forward to your response.

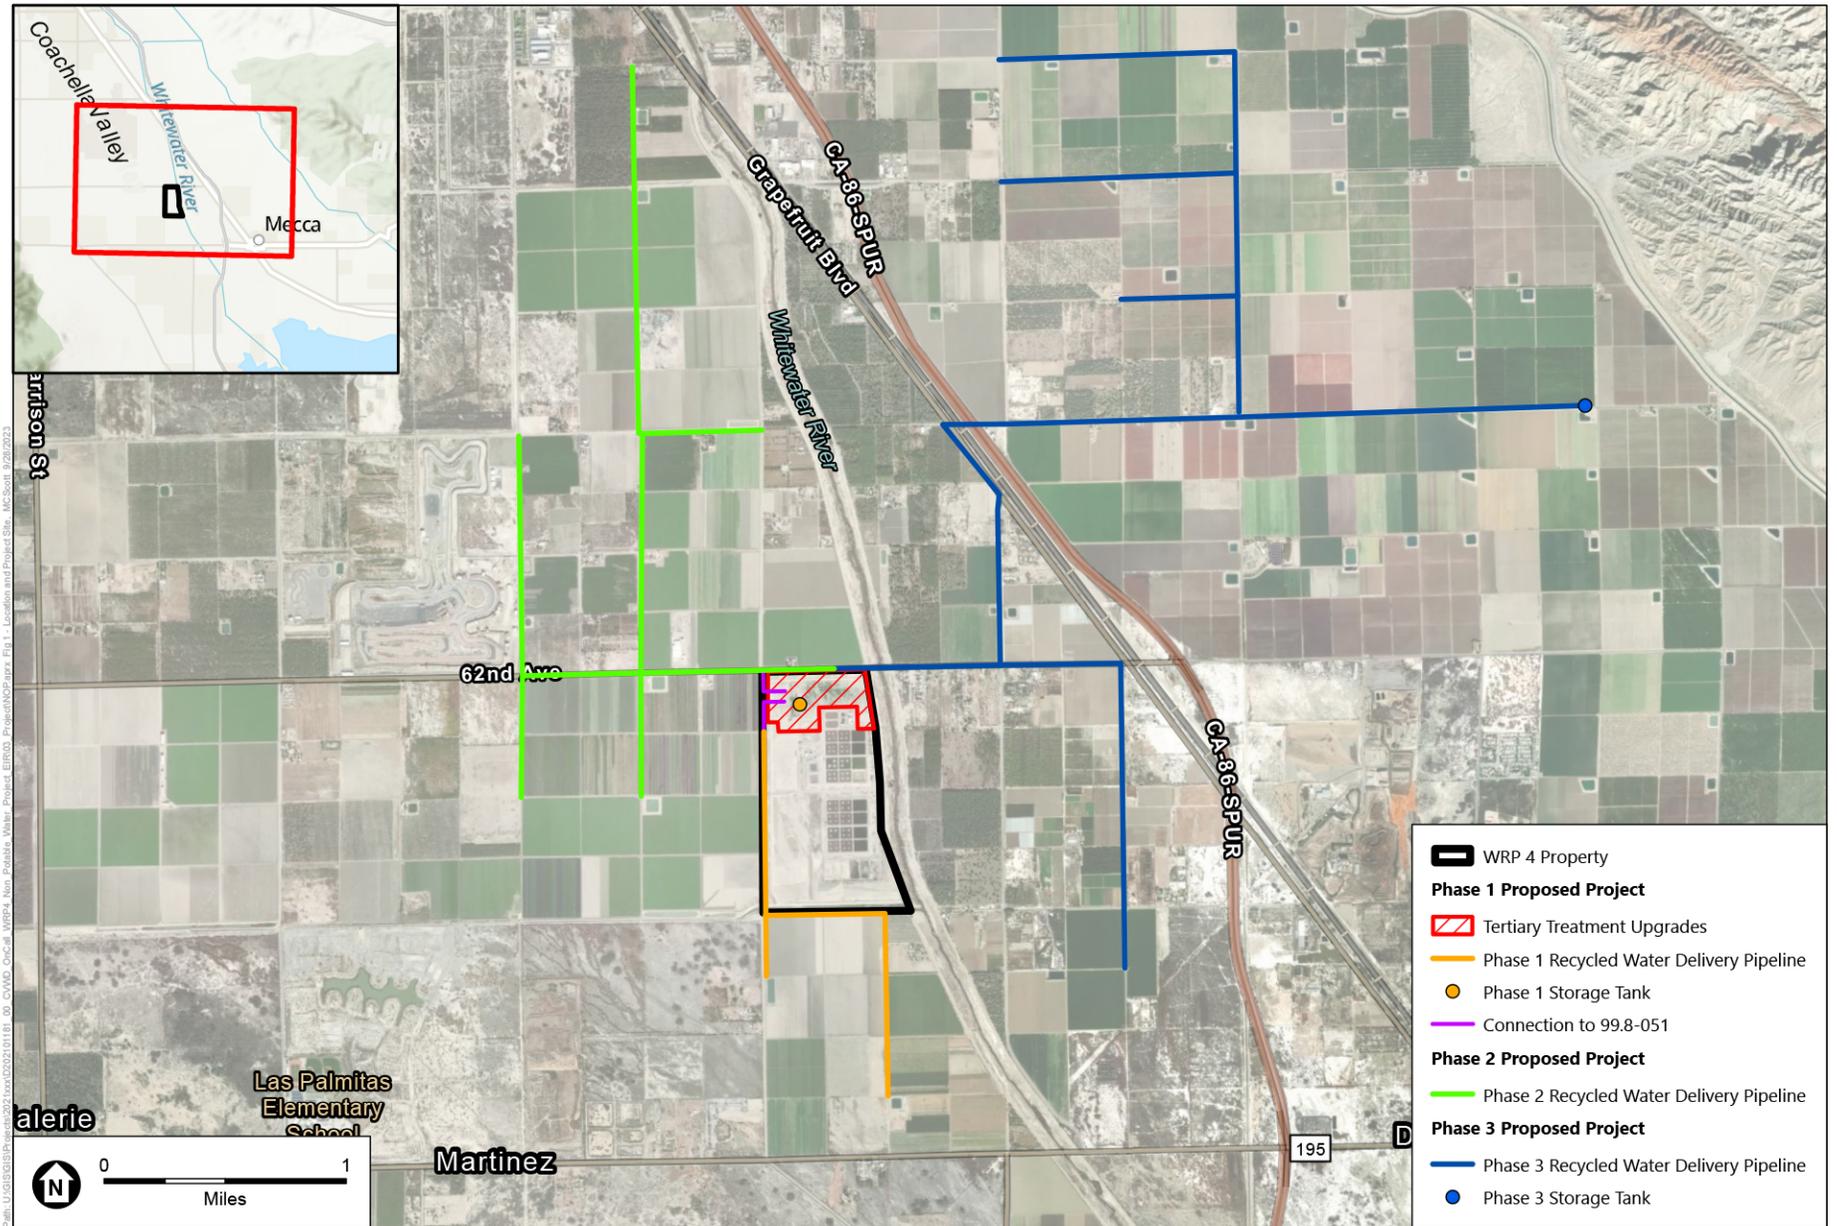

Sincerely,

William Patterson
Environmental Supervisor

Darrell Mike
Tribal Chairman
Twenty-nine Palms Band of Mission Indians
46200 Harrison Place
Coachella, CA 92236

Dear Tribal Chairman Mike:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the
Coachella Valley Water District Water Reclamation Plant No. 4
Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.

Darrell Mike
Tribal Chairman
Twenty-nine Palms Band of Mission Indians
February 1, 2024

We are hereby notifying you of an opportunity to consult with us regarding the potential for this project to impact Tribal Cultural Resources, as defined in Section 21074 of the PRC. The purposes of tribal consultation under AB 52 are to determine, as part of the CEQA review process, whether or not Tribal Cultural Resources are present within the project area, and if so, whether or not those resources will be significantly impacted by the development of this property. If Tribal Cultural Resources may be significantly impacted, then consultation will also help to determine the most appropriate way to avoid or mitigate those impacts. CVWD understands that Tribal information submitted to our agency shall be kept confidential (PRC §21082.3(c)(1)). The purpose of Assembly Bill 52 consultation is to obtain Tribal expertise on the subject project area (PRC §21080.3.1(a)) via Tribal submittal of comments, information and/or project design measures.

In accordance with Section 21080.3.1(d) of the PRC, you have 30 days from the receipt of this letter to either request or decline consultation in writing for this project. Please send your written response to Carlos Huerta's attention at the Coachella Valley Water District 75-515 Hovley Lane East, Palm Desert CA 92260 or by email to chuerta@cvwd.org. In your response, please reference the following project name: Coachella Valley Water District Water Reclamation Plant No. 4 Non-Potable Water Improvements Project. If I do not receive a response within 30 days, then we will proceed. Thank you and we look forward to your response.

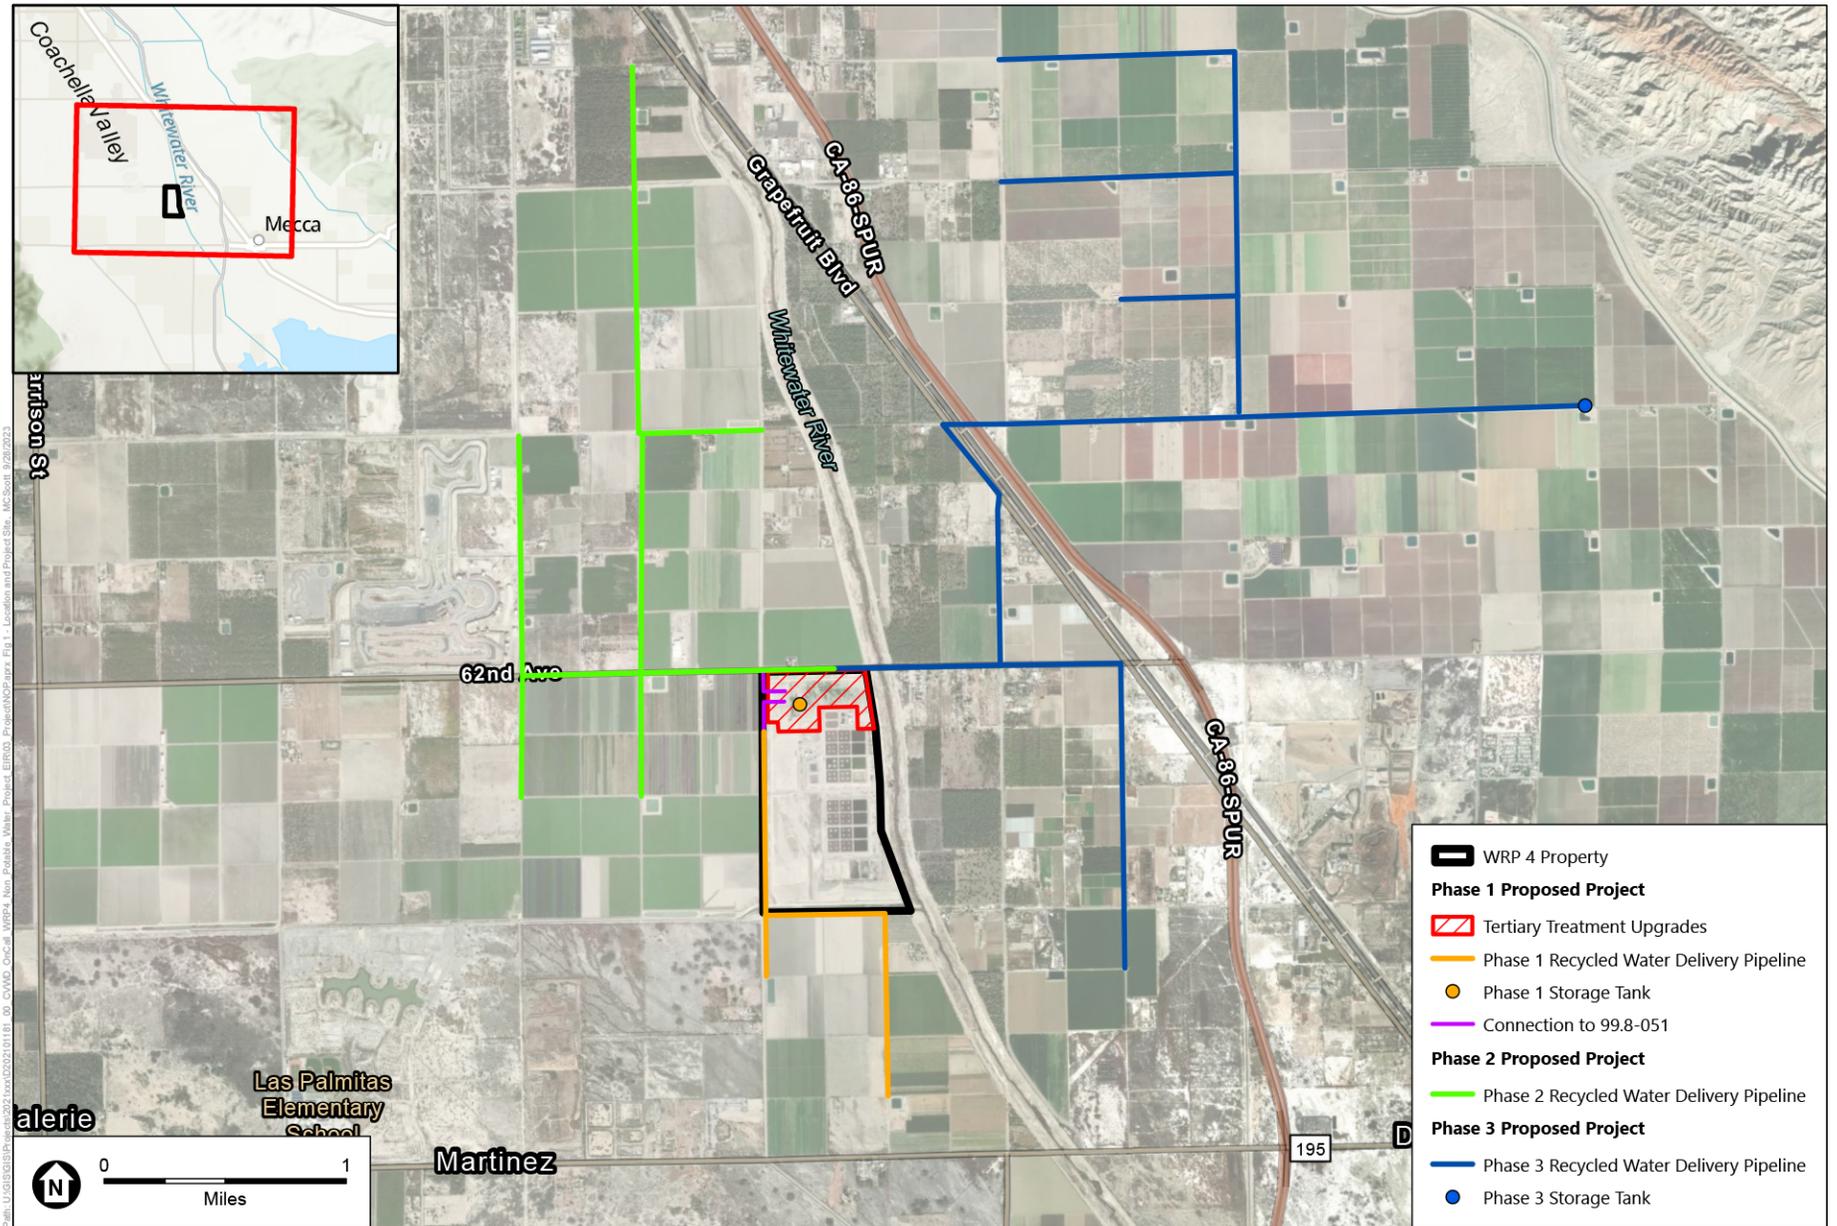

Sincerely,

William Patterson

Coachella, CA 92236

Dear Tribal Historic Preservation Officer Madrigal, Jr.:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the
Coachella Valley Water District Water Reclamation Plant No. 4
Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.

Anthony Madrigal, Jr.

We are hereby notifying you of an opportunity to consult with us regarding the potential for this project to impact Tribal Cultural Resources, as defined in Section 21074 of the PRC. The purposes of tribal consultation under AB 52 are to determine, as part of the CEQA review process, whether or not Tribal Cultural Resources are present within the project area, and if so, whether or not those resources will be significantly impacted by the development of this property. If Tribal Cultural Resources may be significantly impacted, then consultation will also help to determine the most appropriate way to avoid or mitigate those impacts. CVWD understands that Tribal information submitted to our agency shall be kept confidential (PRC §21082.3(c)(1)). The purpose of Assembly Bill 52 consultation is to obtain Tribal expertise on the subject project area (PRC §21080.3.1(a)) via Tribal submittal of comments, information and/or project design measures.

In accordance with Section 21080.3.1(d) of the PRC, you have 30 days from the receipt of this letter to either request or decline consultation in writing for this project. Please send your written response to Carlos Huerta's attention at the Coachella Valley Water District 75-515 Hovley Lane East, Palm Desert CA 92260 or by email to chuerta@cvwd.org. In your response, please reference the following project name: Coachella Valley Water District Water Reclamation Plant No. 4 Non-Potable Water Improvements Project. If I do not receive a response within 30 days, then we will proceed. Thank you and we look forward to your response.

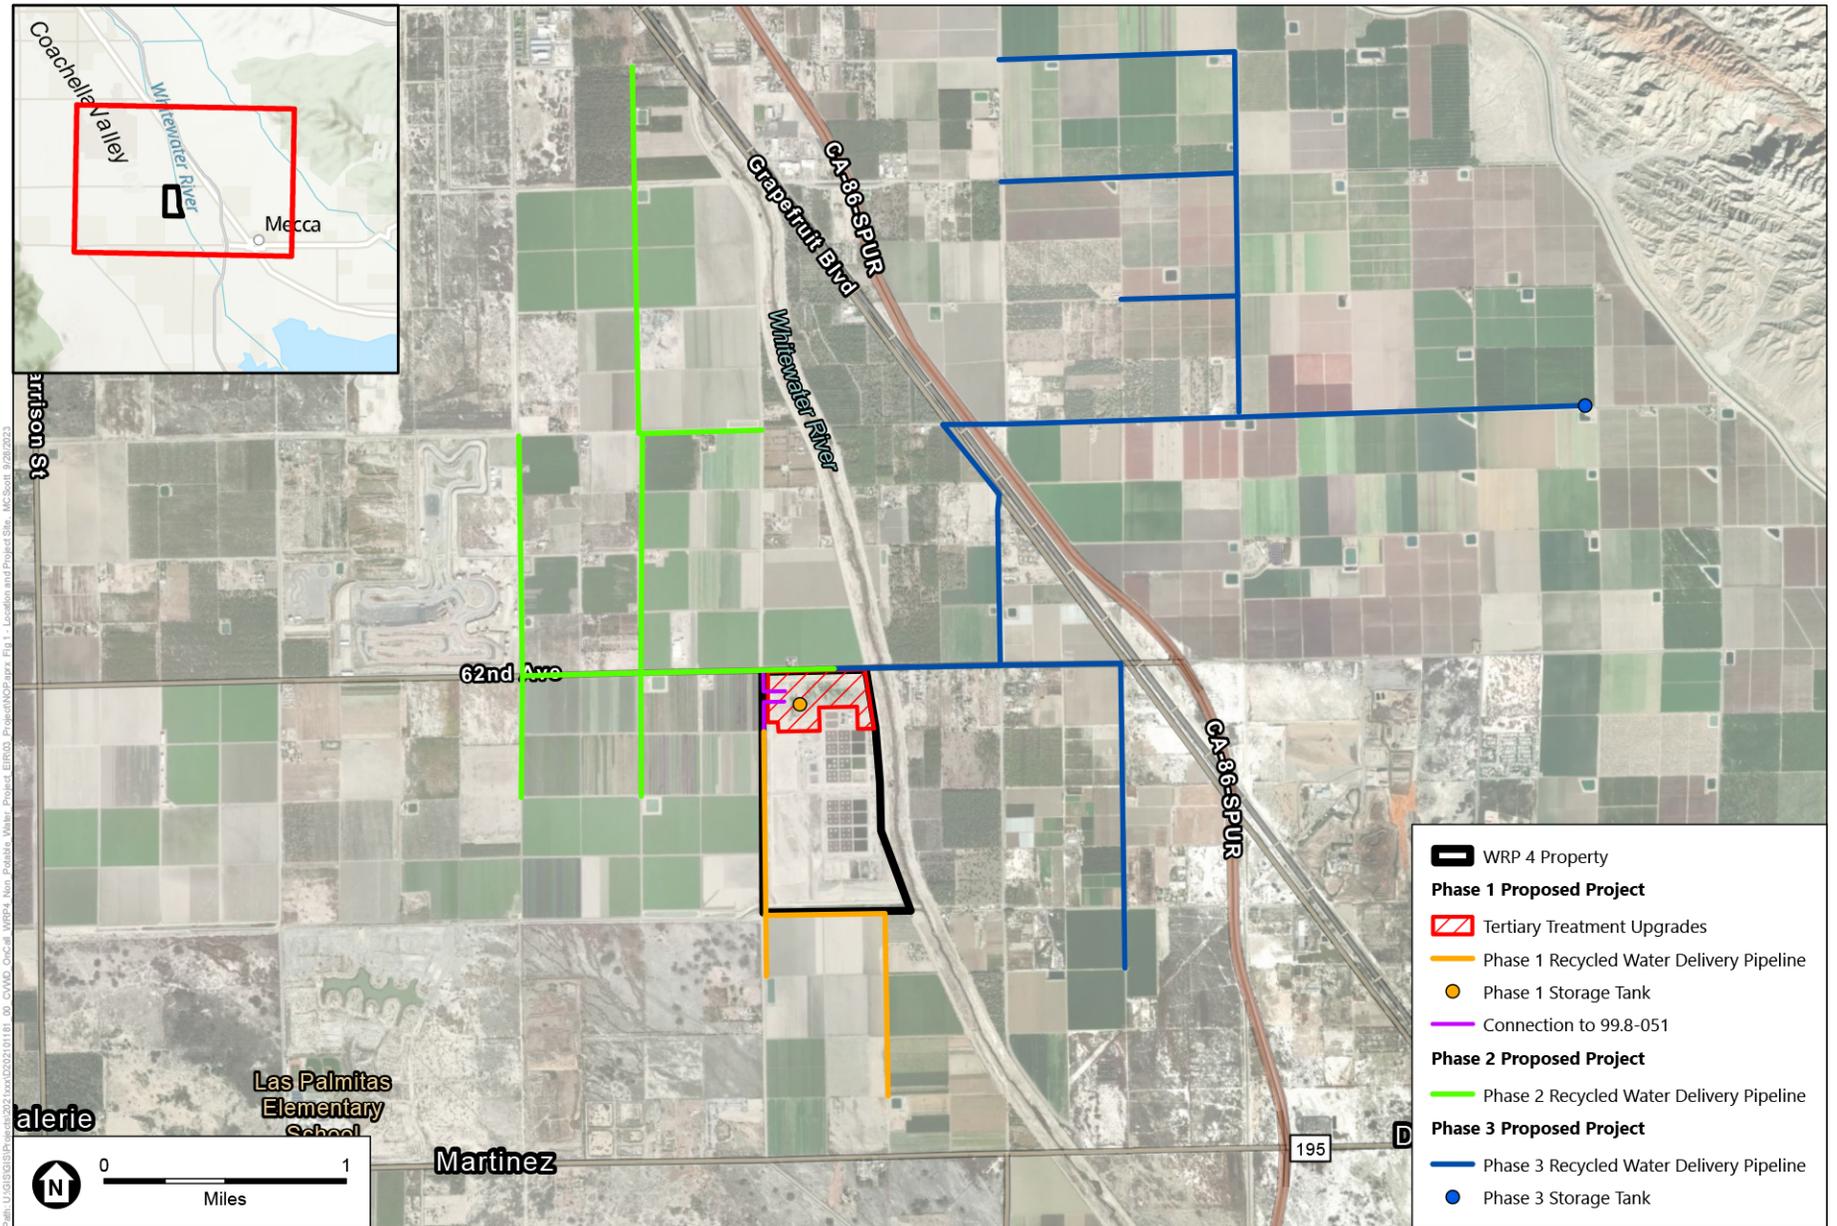

Sincerely,

William Patterson
Environmental Supervisor

Dear Cultural Director Esparza:

Subject: Notice of Opportunity to Consult under Assembly Bill 52 for the Coachella Valley Water District Water Reclamation Plant No. 4 Non-Potable Water Improvements Project, Riverside County

The Coachella Valley Water District (CVWD) is initiating environmental review under the California Environmental Quality Act (CEQA) for the proposed Water Reclamation Plant No. 4 (WRP 4) Non-Potable Water Improvements Project. The purpose of the project is to upgrade recycled water treatment at WRP 4 and conveyance infrastructure to serve agricultural users as well as other landscape irrigation customers in the CVWD service area; and to reduce pollutant discharges to receiving waters. CVWD proposes to construct tertiary treatment facilities within the existing WRP 4 plant site to enable production of up to 10 million gallons per day (MGD) of non-potable recycled water for irrigation. CVWD has developed three phases to achieve 10 MGD production and distribution:

- Phase 1 would include construction and operation of a 1-MGD packaged cloth disk filtration system and an ultraviolet (UV) disinfection treatment plant as part of an overall treatment facility incorporating infrastructure expandable to 2.5 MGD. CVWD would construct a new reservoir serving as a regulatory structure within WRP 4 and repurpose an existing irrigation pipeline to deliver a blend of recycled water and canal water to customers located south of WRP 4.
- Phase 2 would incorporate additional equipment at WRP 4 to treat up to 2.5 MGD of tertiary treated recycled water, with onsite infrastructure expandable to 10 MGD, and construction of new distribution pipelines to deliver 2.5 MGD of recycled water.
- Phase 3 would increase treatment capacity at WRP 4 to up to 10 MGD. Similar to Phase 2, new recycled water delivery pipelines would be constructed to accommodate delivery of 10 MGD to agricultural customers.

Assembly Bill 52 (AB 52) and Section 21080.3.1(d) of the California Public Resources Code (PRC) require that we respond to your prior written request to be notified of projects in our jurisdiction that will be reviewed under CEQA. Your name was provided to us as the point of contact for your tribe.
