Signature of Customer or Authorized Signatory: \_\_\_\_\_

Name (please print): \_\_\_\_\_

Title: \_\_\_\_\_

Date: \_\_\_\_\_

## TERMS AND CONDITIONS

Please refer to the CVWD Regulations Governing Domestic Water Service, Section 3-2.6 for the regulations governing Meter Removal or Size Reduction

- When removing a meter, Customer shall pay \$105.00 for the cost to remove the meter and appurtenances.
- When downsizing a meter, Customer shall pay the current rate for the cost of a new meter, depending on the size of the meter.
- Meter removal or size reductions may be subject to fire flow requirements. Customer must submit minimum fire flow requirement needed for the requested property.
- Meter removal or reduction - Customer may be required to submit landscape plans showing a reduction in landscaped area and reduced flow requirements. Upon installation of the smaller meter, Customer will be required to meet water usage reduction requirements, as outlined in approved landscape plans. Customer shall be subject to higher tiers, and other charges and enforcement actions, in the event of a violation of conservation requirements. Customers with approved landscape plans on file with CVWD may submit an amendment to their plans.
- Customer must sever their connection from the water meter and appurtenances prior to the District removing the meter.
- Reduction – Customer shall be solely responsible for any costs which may arise in the event of a need for the upsizing of meters or other costs due to increased demand on, or damage to, the remaining meters on the property.
- If Customer decides to have a new meter installed subsequent to a Removal, or a larger/previous size meter installed subsequent to a Reduction, Customer shall be solely responsible for applicable fees and compliance with applicable requirements, in effect at that time, for said installation.
- Customer relinquishes any rights which may pertain to the meter and connection being removed including, without limitation, any right to a refund or other payment in regard to the meter and connection which were previously installed.
- Customer assumes all responsibility for costs associated with this request, including removal fees, installation costs, parts and labor. Customer is responsible for any bills, costs, loss, damage, penalties, charges, or fees associated with this request including the abandonment of the CVWD service line, if needed.
- Customer assumes the defense of, and shall indemnify and hold harmless CVWD from and against all claims, actions, damages, and liabilities (including, but not limited to, damage to, or the state of, landscaping), attorneys' fees, costs and expenses which arise from this Removal/Reduction.
- This Agreement is subject to, and incorporates, the rules, regulations, and rate schedules for water service, as amended from time to time. Failure to adhere to these terms and conditions may result in termination of service.
