

Indoor Water Efficiency Rebates & Discounts

Designed to help residential and commercial customers reduce their indoor water use

Residential Indoor Water Kit

CVWD's free Indoor Water Conservation Kit is designed to assist homeowners to conserve water inside the home. Free kits are available to eligible homeowners on a first-come, first-served basis.

High-Efficiency Toilet Program

Residents can receive up to a \$100 rebate plus the \$10 recycling fee for installing a high efficiency toilet.

Businesses, such as hotels, can receive a rebate of half the cost of the new high-efficiency toilets and installation, up to \$140 per toilet. Waterless urinals are also eligible for a \$140 rebate. Requires pre-approval.

High-Efficiency Washing Machine

Residential customers can receive a rebate of up to \$150 for installing a new high-efficiency washing machine. Qualifying washing machines must be an Energy Star certified high-efficiency model with an integrated water factor of 4.5 or less.

Hot Water Recirculating Pump

Residential customers can receive a rebate for installing a Hot Water Recirculating Pump in their home. These pumps save water and energy by reducing the wait time for hot water to arrive at the faucet or shower. CVWD offers a maximum \$125 rebate, or the cost of the recirculating pump, whichever is less.

Your Water
is our promise
