

COACHELLA VALLEY WATER DISTRICT
HOA AND COMMERCIAL ROTARY NOZZLE REBATE PROGRAM
APPLICATION
PROGRAM YEAR: JULY 1, 2021 – JUNE 30, 2022

File: 0541.48

ABOUT THE PROGRAM

The Coachella Valley Water District (CVWD) established the Landscape Water Management Program for the purpose of water conservation and to eliminate nuisance water, overspray and run-off. CVWD is offering the HOA and Commercial Rotary Nozzle Rebate Program (Program) for eligible HOAs and commercial customers who convert from less efficient traditional fixed or adjustable arc spray nozzles to more efficient rotary nozzles for watering lawns and turf areas. The rebate pays \$4 per installed rotary nozzle up to 2,500 nozzles that equates to a maximum of a \$10,000 rebate per Project (Project). Multiple Projects are allowed. Each Project requires a separate application.

High-efficiency rotary nozzles apply water more slowly and uniformly to lawn and turf areas preventing misting and overwatering that can cause runoff. Because the water is applied more slowly, more water is able to soak into the soil. Rotary nozzles use up to 20% less water than traditional spray nozzles.

TERMS AND CONDITIONS

ELIGIBILITY

All rebate Projects must be pre-approved before work begins. If you begin or complete your Project before applying and receiving pre-approval, your Project is not eligible for a rebate. **No retroactive rebates will be approved.** Eligible Projects will be funded on a first-come, first-serve basis. There is no guarantee that funds will be available for an entire Program year (July 1 through June 30).

ELIGIBILITY CRITERIA

1. Applicant must be a CVWD HOA or Commercial account holder. Only domestic water customers are eligible for this Program. Private pumpers, recycled water and canal users are not eligible.
2. Applicant must be the owner of the property site, or be a designated representative with photo ID and written authorization to represent the property owner or HOA.
3. Applicant's account must be in good standing.

CONDITIONS

1. Applicant must:
 - o Complete and sign a rebate application.
 - o Complete and sign an Internal Revenue Service Form W-9. The federal tax code treats landscape rebates as taxable income.
 - o Submit a site plan or aerial map for all areas within each Project you are converting to rotary nozzles. Site plan or aerial map will include delineated area of conversion for each Project area.
 - o Agree to schedule, and allow, CVWD representative(s) onto the property for Pre-Site and Post-Conversion Inspections.
2. Written pre-approval must be received before the conversion may begin. Notification will be sent to the email address provided on the application or by USPS if no email was provided. **No retroactive rebates will be approved.**
3. Receiving pre-approval is solely an estimate and does not guarantee a rebate. The pre-approval amount is based on the applicant's approximate number of rotary nozzles requested.
4. Rebate amounts will be determined by verification during the Post-Conversion Inspection.
5. Only rotary nozzles from the following approved manufacturers are eligible for a rebate: Hunter, K-Rain, Rain Bird and Toro. Additional information is available at www.cvwd.org/HoaNozzles.
6. Applicant must complete the Project within 90 days after written approval is given.

CONDITIONS (continued)

7. No mixed zones are permitted at Project completion. A mixed zone has different types of irrigation on the same zone. Mixed zones do not qualify for a rebate.
8. Customer will ensure retrofitted areas have an operating pressure within the sprinkler manufacturer's specification. This may require installation of a pressure regulator.
9. Customer must provide a smart irrigation controller for all retrofitted landscapes. Customers are encouraged to participate in CVWD's Large Landscape Smart Controller Rebate Program.
10. If applicant fails the Post Conversion Inspection, CVWD will attempt to allow the applicant to make changes to the Project to comply with the Program and be eligible for the rebate. CVWD will conduct one (1) additional Post Conversion Inspection within 30 days of the failed inspection. CVWD will not provide more than two (2) inspections for failure to follow program guidelines.
11. After the Project is completed, approved and verified, a rebate check will be mailed to the billing or mailing address associated with the applicant's account within 90 days.

RELEASE OF CLAIMS AND IDEMNIFICATION

By applying for or participating in any component of CVWD's Programs, personal information listed on your application may be subject to disclosure to any member of the public who requests it pursuant to the California Public Records Act.

Neither CVWD, its contractors or agents, makes any representation or warranty regarding the contracted services or products that you may select for your Project(s) under the Program. Removal of turf, overhead spray irrigation, adjustable bubblers or emitters and traditional spray nozzles and the installation of water efficient devices and plants does not guarantee reduced water use. Any and all claims or causes of action you may have in connection with any defect or failure of performance of any contracted service or installed product or device provided to you for your project may only be pursued with the contractor you hired or the appropriate manufacturer/distributor.

By participating in the Program and accepting the rebates provided, you thereby release CVWD, its contractors and agents, from any and all claims and causes of action that may arise out of your removal of turf from your property and/or the purchase, installation, and/or use of water efficient devices and plants in connection with the HOA and Commercial Rotary Nozzle Rebate Program.

CVWD and its representative will take photos of project areas being renovated through the Program and may use pre- and post-conversion photos for reproduction or promotional purposes. Identifying location features, such as address numbers, will not be included in any promotional materials.

CVWD is responsible for operating and enforcing the Terms and Conditions of the HOA and Commercial Rotary Nozzle Rebate Program. As the Program participant, you are responsible for ensuring that your Project complies with all applicable Federal, State and local laws, CVWD rules and regulations, as well as applicable CC&Rs, and/or HOA restrictions. Quality of work and appearance of the converted area are the responsibility of the participant.

Further, you agree to indemnify, defend, and hold harmless the CVWD, its directors, officers, employees, contractors and agents, from all liability and claims of any kind arising out of, or related to, removal of turf, overhead spray irrigation, adjustable bubblers or emitters and traditional spray nozzles and purchase, installation, and use of water efficient devices and plants in connection with this Program.
