

## Landscape Plan Quick Guide

- Plans do not have to be professionally drawn.
- If you are installing artificial turf:
  - Draw the shape of your yard
  - Add the square feet or dimensions
- If you are installing desert-friendly landscaping:
  - Draw the shape of your yard with dimensions or square footage
  - Add a plant legend/key
    - Use a coding system with letters or numbers to identify the plants you will be using.
    - Place them on the plan according to their planting location.
- See sample landscape plan below:
